## APPENDIX 3

### YouTube Video (© C. Camacho)

A dispute between Crested Tits raising nestlings and a pair of Pied Flycatchers that built a nest in the same nest box in 2012. The flycatchers persistently disturbed the Crested Tits when they tried to enter the nest box to feed the nestlings. Finally, the Crested Tits abandoned the nest and their fledglings died while the flycatchers successfully raised four young.

*[Un conflicto entre herrerillos capuchinos criando pollos y una pareja de papamoscas cerrojillo que construyó un nido en la misma caja nido en 2012. Los papamoscas molestaron de forma continuada a los herrerillos capuchinos cuando estos intentaban cebar a sus pollos. Finalmente, los páridos abandonaron el nido y sus pollos murieron; los papamoscas criaron con éxito cuatro volantones.]*
